

Crosby ELIMINATOR™

Standard Industry Chain Sling Terminology

The Crosby ELIMINATOR™ uses standard industry terminology to make changeover to the system easier.

Adjustable chain slings utilizing the Crosby ELIMINATOR™ fittings retain standard sling abbreviations. Simply adding the letter “E” to the

standard sling type means the sling has been assembled with the Crosby Eliminator™.

No more confusion or uncertainty over “Style A”, “Style B”, “Style 1”, or “Style 2” adjustable slings. These style designations aren’t needed with the Crosby ELIMINATOR™ (see below).

The slings shown here are standard assemblies that can be made from “Proof Tested” Crosby Components and Alloy Chain supplied by your authorized Crosby distributor. Assemblies must include chain sling identification tag.
